Spring is in the air. While many enjoy the changing of the season, for some, the itchy eyes, runny nose and endless sneezing are no walk in the park. Pollen from trees, flowers and grass can aggravate your allergies, especially in Florida.

# Coronavirus: How to Protect Yourself

While only a few cases have been documented in the United States, it's important to be aware of how to minimize the risk of infection.

Washing your hands regularly and cleaning, disinfecting, and/or sanitizing surfaces frequently are great ways to prevent the spread of viruses. Plus, avoid contact with anyone who is experiencing symptoms of respiratory illness, such as coughing, sneezing, fever and shortness of breath, to help keep you protected.
