Adjusting to Working from Home

No sitting in traffic and working in pajamas might be nice, but how can we deal with the challenges that come with working from home? Consider these tips to stay healthy, productive and sane as you adjust to your new "office".

1. **Watch the sun rise and get started early.** Make your morning *cafecito*, catch up on emails or try to tackle something that needs your undivided attention.
2. **Keep a detailed planner.** To help you maintain a routine, consider mapping out what your work day and personal day will look like to help you find balance.
3. **Talk to someone.** Even if it's just for a few minutes, speaking with someone you can relate to may help calm your nerves and keep you on track.
