## What to Know When Shopping for a Recreational Vehicle

If you're ready to try out the RV life, shopping for one can be an exciting but overwhelming process. Here are three things you might want to do before you buy a home on wheels.

**#1 Make a wish list.** Think about the things that will match your lifestyle and value those things over cosmetic details. Plus, you'll want to have a realistic budget, good storage space and know its weight if you'll be towing it.

**#2 Save money, buy used.** Similar to a regular vehicle, RVs depreciate quickly and brand new may not mean fewer problems. However, many people buy brand new RVs but find themselves rarely using them.

**#3 Find one that fits your lifestyle.** If you plan to spend most of your time visiting parks and will be spending most of your time outdoors, you'll want an RV that doesn't restrict you because of its length,

maneuverability or boondocking capabilities. If you'll be working from it or will be homeschooling children, perhaps, you want the comfort, space and amenities of home while traveling.

And remember, before you hit the road, we've got the coverage you need for your RV! Visit [www.estrellainsurance.com](http://www.estrellainsurance.com) to get a free quotes in minutes!

## Money-Saving Summer Road Trip Tips

Ditching the high prices of traveling by plane to take a memory-making road trip this summer? We have a few tips to make your journey even more economical.

And don't forget about one of the best ways to save before you start your adventure! Make sure you're paying the **LOWEST** price on car insurance and quote with Estrella today!

Try downloading an app that can help you save money and time by showing you the nearest stations with the lowest gas prices.

Need a coffee fix? Bring a compact on-the-go coffee-making thermos and use an instant coffee mix. Those \$5 cup stops start to add up.

Want to spend the night somewhere? Do a little research. Some places offer package deals that include gift cards or complimentary breakfast.

If you're making a stop in a city with convenient local transportation, avoid wear and tear on your car by looking into affordable subway, bus or train travel to get around during your visit.

## Thinking of Buying a Boat?

Besides choosing Estrella Insurance for the best coverage with the biggest savings, you might want to consider these things before you dive in.

- Know what you want. Is it for cruising, wake sports, fishing, speed or entertaining? Once you decide, it'll be easier to pick a boat that fits your needs and budget.
- Smaller and simpler is usually pocket-friendly. The price is lower, the insurance is less, the fuel and upkeep are generally less and you may be able to trailer the boat rather than keep it at a marina, which is definitely cheaper.
- Inspect the boat thoroughly. Open hatches, check the access to electronics, engines and other systems. If you see something you don't like, ask the dealer for more information.

When you make a decision, we're here to provide the coverage you need at the price you want! [www.estrellainsurance.com/services/boat](http://www.estrellainsurance.com/services/boat).

## Safety Begins with Proper Awareness

# Safety First!

June is National Safety Month, and now is an excellent time to educate yourself on important preventative measures and tips. Whether it relates to home, work, vehicle or water safety, the following information could help prevent an accident.

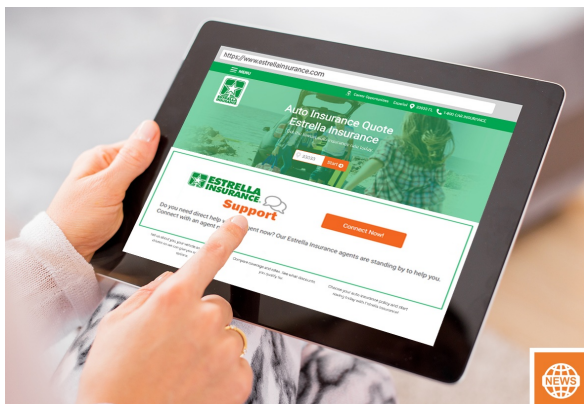

As always, stay safe and remember that if you need protection with quality coverage, we've got your back. Get a quote for all types of insurance at [estrellainsurance.com](http://estrellainsurance.com) or call your local agent today!

**Home:** Loose electrical wiring, exposed sharp tools or dangerous chemical materials could increase the risk of injury. Take a few hours to check your home for hazards and address them as needed. Plus, doing practice drills with children in case of a fire, severe weather, medical emergency or natural disaster is another smart preventative safety measure.

**Work:** In addition to keeping a clean and organized workspace, using or asking for labels and signs as warnings are good reminders of potential hazards.

**Vehicle:** It doesn't matter if it's for land or sea; maintenance is key when it comes to ensuring your vehicle's safety as best as it can be. Clean your headlights, test your horn, check your fluids and review your policy.

**Water:** Going to the beach or pool? Always use sunscreen to protect your skin, supervise children even if they know how to swim, and learning CPR could be of great benefit in a life-threatening situation.

## Need Help From an Agent?
